CERTIFICATE COURSE SPECIAL HEALTH CARE NEEDS IN DENTISTRY

HIGHLIGHTS

The course will be divided into 3 modules.

- Module 1 - Online
- Module 2 - Offline
- Module 3 - Evaluation and Examination - Offline

COURSE DURATION: 40 hrs

OBJECTIVES

Children with special health care needs present a great challenge for the paediatric dentist in providing the appropriate dental care. This certificate course addresses the commonly occurring medical and developmental conditions that make dental treatment difficult. It aims to enhance the knowledge, understanding and clinical skills to better manage children with special health care needs.
